- Accurate recording of hours worked each day, PTO, Bereavement, Jury Duty and Military Leave.
- Daily, visually inspect all belt tracking, HMI location/condition, check oil, blow out/clean (replace if necessary) air filters as well as compressors. Document and address any issues found as well as report issues to immediate supervisor.
- Daily, assure dust collectors are operating properly and that fill tube caps are not missing/in place. Document and address any issues found.
- Perform soil compaction test with Penetrometer as necessary for each job.
- Responsible for rigging down systems before each move and spotting silos at new locations.
- Assisting, training and supervising moves assuring that 3<sup>rd</sup> party trucking performs and complies to meet customer standards.
- Responsible for rigging up, programming and testing system once fleets are standing up at a location.
- Daily communication to supervisor regarding progress, delays, shutdowns, issues, etc. with customer or with silo system.
- Visually inspect all assets daily. Document and address any issues found and report to Area Supervisor.
- Conducts equipment maintenance and other repairs when needed.
- Performs scheduled cleaning of equipment, ensuring all documentation is completed.
- Inspect and grease all pins on transport trailer regularly (each time the trailer is used).
- Change air and oil filters on transport trailers every 30 days (early if needed or directed).
- Change genset oil, genset oil filters, fuel filters and air filters every 500 hours (early if needed or directed).
- Provides value added service to customers by doing whatever reasonable and possible to meet or exceed customer expectations.
- Inquire daily with representatives at location if they are experiencing any difficulties with systems, computers, etc.
- Demonstrates teamwork by cooperating and assisting co-workers as needed.
- Communicates effectively with customers, co-workers and management.
- Read, count and write to accurately complete all necessary documentation, if needed.
- Knowledge of computer-based programs (Everyday use of computer equipment).
- Ability to identify and solve problems, and manage conflict, when needed.
- Demonstrated mechanical and electrical ability.
- Attends work as scheduled. Adheres to company policies and procedures.
- Maintain confidentiality of all customer and company information.
- Assist Supervisor with scheduling, moves and per job as needed.
- Ability to handle multiple and changing priorities/deadlines and moderate stress.

**Safety**

- Minimizes safety hazards by following all safety rules and procedures.
- Coordinates with other wellsite personnel to ensure safe and efficient operations.
- Operates in accordance with health, safety, and fire prevention regulations and practices.
- Ensure you have proper PPE and are aware of when and how to use.
- Ensure all personal safety certifications are current. Contact Safety Manager or Supervisor for assistance is renewing required certifications.
- Schedule and coordinate necessary safety training for self or customers with supervisor as needed.
- Safely operate a company vehicle, abiding all motor vehicle laws, and keeping vehicle in respectable condition.
- Ability to safely operate powered equipment (i.e. scissor lifts, forklifts, etc).

**Additional Job Duties and Responsibilities**

- Manage work duties and responsibilities to ensure a minimum of 90% of time is spent in the field working and visiting customer locations.
- Demonstrated physical ability to perform the functions of the job described in Addendum to Job Description.
- Employee should expect to work up to but not limited to 65 hours a week, occasionally be on call on weekends/after hours.
- This is not an exhaustive list of all responsibilities, skills, requirements, or working conditions associated with the job. Management reserves the right to revise the job or to require additional tasks be performed to fulfill job function.

**Experience**

- Requires high school diploma or GED equivalent
- Technical associates degree or certification preferred
- Oilfield wellsite experience preferred
- Must be at least 18 years of age and have a valid driver's license
